Lowe Ashton introduced Mr. Reed Hatch and his son Marion. Mr. Ashton then commented on the status of the move of the engines and the current grant. He then discussed what we hope to achieve from the grant, i.e., track renovation, terminal beautification, turntable at Bridal Veil with an 800' passing track. Replace 75# rail with 90# rail, upgrade curves, and ballast. The probability of the grant look very good at this time.

J.D. Boggess asked for current status of engines. Lowe indicated that he was leaving this afternoon to find the approximate location and get some idea of a possible delivery date.

J.D. Boggess moved we adjourn. Jim Ritchie seconded. Motion carried.
